Plan Your Attack Today!

Pirates did affect change in the early world of business development. They were "Agents of Change", creating a competitive and often risky venue within which these entrepreneurs adapted and flourished or became complacent and extinct.

Our themed approach allows your team to seek, accept and manage change by acting as "Pirates, Agents of Change." Each adventure instills humorous and meaningful antidotes that carry important messages on interpersonal dynamics and values.

The Adventures can be customized to fit your corporate mission or goal, be it leisure, problem solving or team building.
