OUR PERSONAL GUARANTEE

We understand there are many approaches to teaching sailing. We know there are many schools around the country from which one may choose.

Most schools teach essentially the same concepts. The art and science of sailing doesn't change. However, the actual instructional process, opportunities for practice, and the enjoyment while learning can differ greatly.

Windsong utilizes a unique methodology in teaching and learning reinforcement.

- Flexible open ended approach effective in meeting students' budgets, learning styles, and recreational time constraints.
- Ability for students to learn at their own pace without the pressures of rushing to meet a preset certification deadline.
- Instructor customized drills and training to match individual learning styles and goals.
- An array of flexible dates and locations.
- Fully certified and licensed instructional team to meet your individual needs.

Your satisfaction and our reputation go hand in hand and we greatly value both!
